

STOP NUCLEAR BAILOUTS!

A DAY OF ACTION

SEPTEMBER 13, 2021

Proposals from the White House and Congress would invest up to \$50 billion dollars in subsidies for aging, uneconomical nuclear power plants over the next decade. The Biden Administration's infrastructure bill is our chance to take real, effective action on climate, economic renewal, and a just future. These nuclear bailouts would perpetuate environmental injustices while blocking effective progress towards climate action. We can't let the nuclear industry block actual climate solutions, economic prosperity, and justice to subsidize the dirty, unjust, and corrupt energy systems of the status quo.

Our leaders need to hear from us: We want a clean, renewable energy future and the jobs that come with it. Tell them to STOP bailing out a failing, dirty, crooked industry that poisons our environment and vulnerable communities and start investing in a safe, healthy, sustainable American future.

**JOIN NIRS AND ACTIVISTS ACROSS THE NATION
ON MONDAY, SEPTEMBER 13 FOR A DAY OF
ACTION TO STOP THE NUCLEAR BAILOUT.**
